

Determining the amount of Title IA Funds for Equitable Services			
District Allocation Amount: \$ 789,000			
Public School Attendance Area	Number of Public School Low-Income Children	Number of Private School Low-income Children	Total Number of Low-income Children
Washington Elementary	542	10	552
Syringa Middle	613	3	616
Wilson Elementary	430	6	436
Lewis & Clark Elementary	393	7	400
Total	1978	26	2004
Proportionate Share	98.7%	1.3%	
	\$ 778,743	\$ 10,257	

Explanation: District A has one private school it is consulting with. There are 26 private school low-income students that are living in the attendance area of four Title IA eligible and served schools. The number of low-income students for each school is added together to determine the total number of public school students. Next the number of public school low-income students is added to the private school low-income students. Using the proportion of private school low-income children, the LEA would determine the amount of funds available for equitable services based on the proportionate share of the LEA's total Title IA allocation.

C1: B3 divided by A3	\$ 36.33
D. Equitable Services	
Amount LEA must reserve for equitable services for private school teachers and other education personnel = A2 x C1	\$ 3015.39

Explanation: The amount District A must reserve to provide equitable services for private school teachers and other education personnel for Title II, Part A is based on the LEA's total Title II, Part A allocation, less administrative costs. The district will determine the amount of funds available by calculating on a per-pupil basis, the amount available for all public and private school students enrolled in participating private elementary and secondary schools in areas served by the district.
